TOO MANY APPLICATION-WIDE FEATURES TO LIST...

Only **WINDWARD CONSULTING | SOFTWARE** and its' partner Adeptive Software Corporation have created a workflow-based, transaction coordination solution that incorporates all the necessary components to run your business from one place. Title underwriters, title agents, vendor management companies, relocation & real estate services companies, bundled service providers, and even appraisal & inspection companies can utilize ResWare™ effectively to control their business operations.

- Employees are significantly more efficient with ResWare™. Due to ResWare™'s unique time saving features, an employee can typically handle 20-50% more customer files.
- Action Items™ ensure that all employees are performing the job the same way, reducing missing information, lost transactions, upset clients, and other costly errors. A self-administrated, repeatable process ensures customer satisfaction and an audit trail is available for E&O and other statutory compliance.
- Scanning and locking all pertinent documents and communications into electronic files reduces the amount of paper, in turn reducing storage costs and document misplacement.
- Employees can communicate quickly and effectively through e-mail, faxes, and the user-friendly ResWare™ interface directly from a customer file.
- Incoming e-mail messages and attachments are automatically locked to a customer file when a valid customer file number is found in the e-mail's subject line, making ResWare™ the central repository for all communications.
- Bundled Service Partners, Buyers and Sellers can log into a customized Transaction Management System website to view their files, download documents, enter orders on-line, and correspond with employees, reducing employee contact and costly phone calls.
- Employees are able to make changes to Action Items™, document templates, employees, partners, and vendor management functions with an easy-to-use, self-administered interface. ResWare™ has the flexibility to quickly adapt to your changing business needs.
